

Result based financing data systems

OpenRBF and DHIS2 centric RBF systems

June 2020

Who are we?

Health data system and data sciences company with strong expertise in health financing

45 colleagues. 7 locations

We support **health financing data system solutions**

- Result Based Financing
- Health Insurance

By use of various **tools**

- OpenMIS
- OpenRBF
- DHIS2
 - Hesabu
 - DataViz
 - D2D
 - Iaso

Result Based Financing

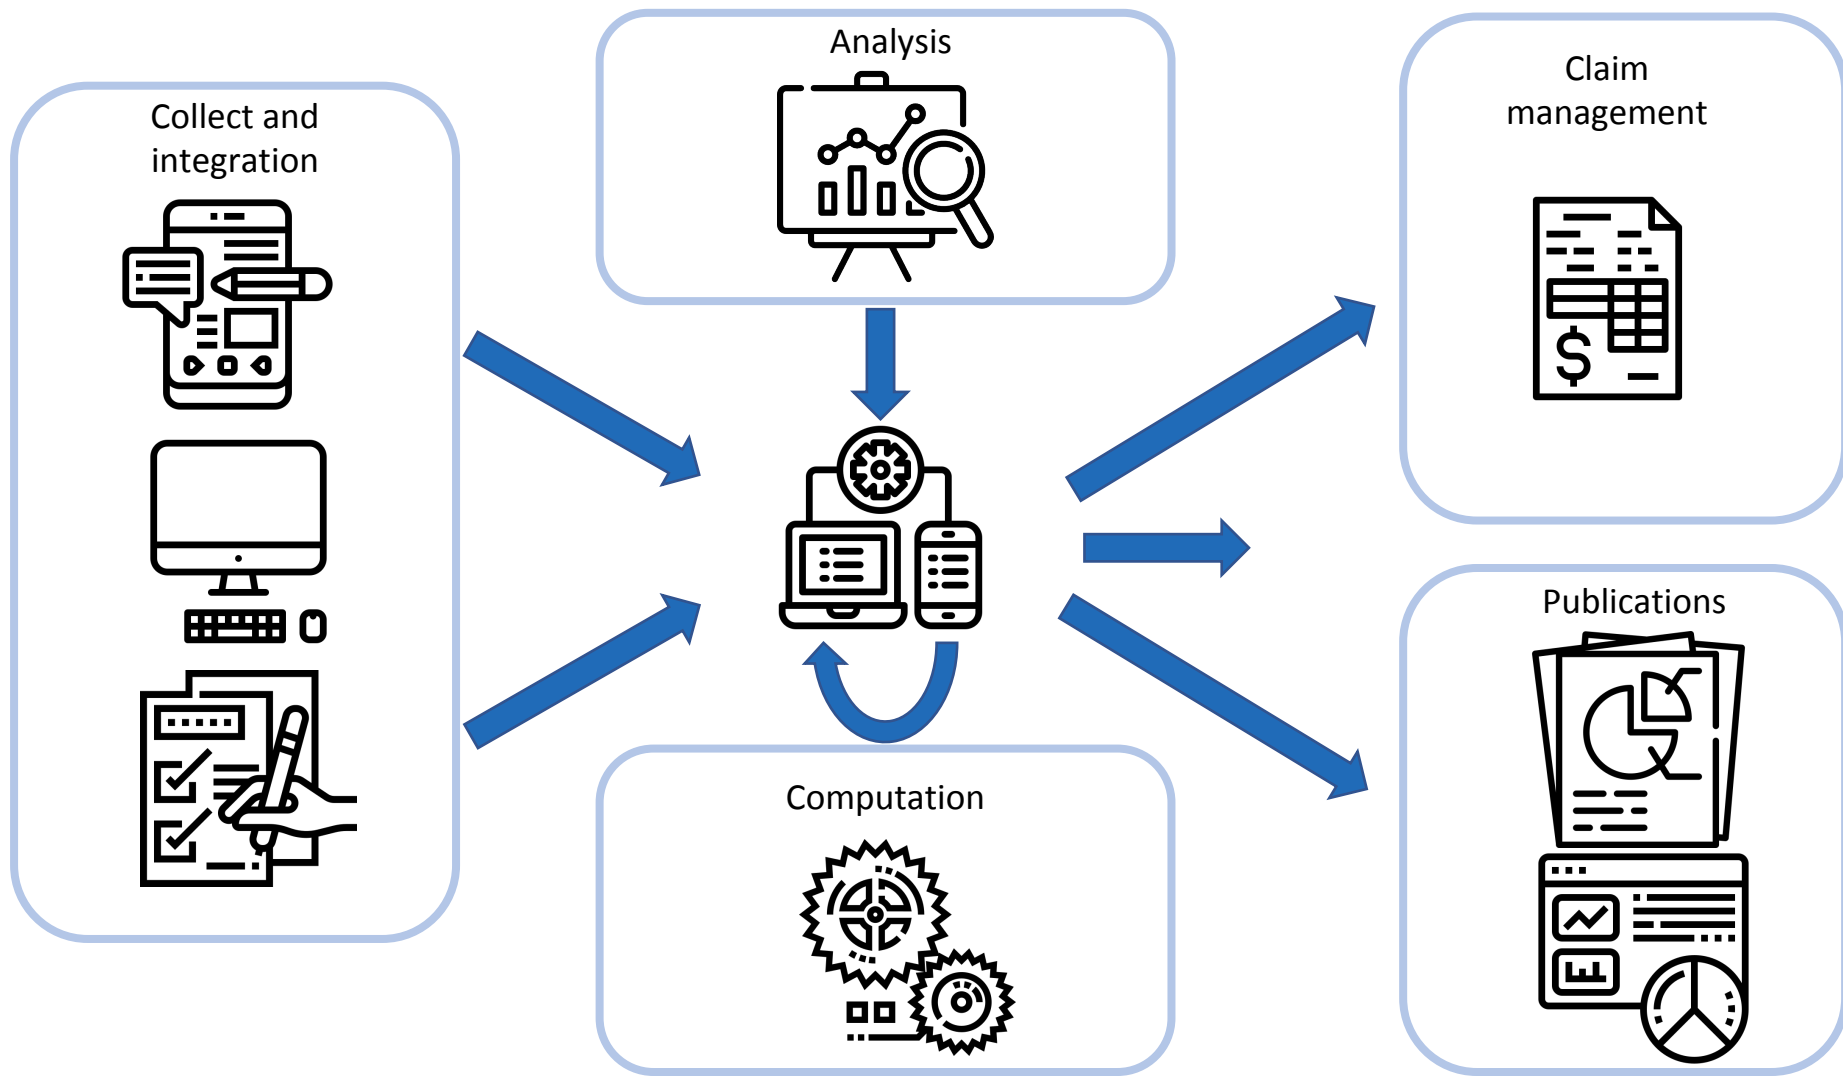

A family of supply-side health financing instruments where financing is linked to an explicit defined result. Different naming:

- Pay for Performance
- Pay for quality
- Performance-based financing
- Result-based financing

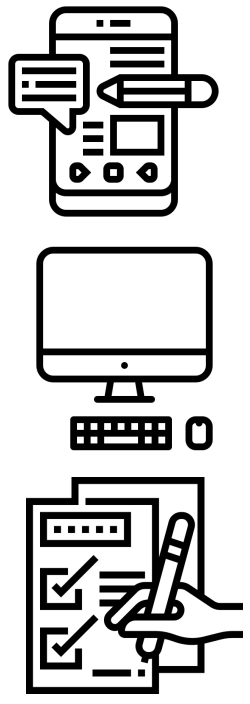

Most of the time :

- Targeted to health care providers (or schools, or administrative entities...)
- Sometimes, targeting individual, nurses, community health workers,...

MINISTÈRE DE LA SANTÉ ET DE L'HYGIÈNE PUBLIQUE

Portail du financement basé sur la performance de la Côte d'Ivoire

Le Financement Basé sur la Performance (FBP) est un cadre de réforme de la santé, qui vise à améliorer l'efficacité du secteur afin de parvenir à la couverture universelle en santé. La Stratégie Nationale de Financement Basé sur la Performance (SNFBP) a été élaborée en vue de permettre au Ministère en charge de la Santé, d'améliorer le financement du secteur sanitaire. Sa mise en œuvre devrait faciliter l'atteinte des résultats fixés par le plan national de développement sanitaire PNDS.
