openIMIS

Club (1) – from 13:15 GMT+1

Orientation for Community Building and Management

Presented by

Konstanze Lang / Coordination Desk

openIMIS Community Meeting 2021

Day 1

openIMIS

Introduction

- Context: Community and Capacity Building Concept
- Community Building needs working along joint agenda – joint topics
- Joint topics to be defined from the perspective of community (= orientation by community to Community Building and Community Management)

Tasks for club:

1. *Please, state the individual work packages of your task team, with which you contribute to the openIMIS Initiative (5min)*

2. *Identify the interlinkages between your work packages and the related topics on which we need to work together. (20min)*

3. ***Discussion**: Relate these topics to the ‚bigger picture' i.e. how openIMIS is presented towards potential users, co-implementers or co-funders. (10min)*

Introduction

Vision and mission of openIMIS Initiative

Vision statement of openIMIS Initiative (based on SGM March 2018): "The implementation of a continuously improved open source Management Information System for social (health) protection schemes (openIMIS), will lead to effectively managed insurance schemes and other financing mechanisms, and ultimately to UHC and USP."

The **Mission** is to: "Continuously and collaboratively develop shared, open-source software to improve data and information management of (health) insurance and other financing mechanism for universal health coverage and universal social protection in low and middle-income countries,
making openIMIS product a freely available Global Good"

Marketing messages to external audiences

.... to scheme operators, other CoP / networks in health / social protection, academia:
openIMIS is an open source solution for the management of health financing schemes and other mechanisms in social (health) protection

.... to scheme operators, other CoP / networks in health / social protection, academia:
openIMIS is a global good in health and social protection. It presents a sustainable digital solution to strengthen Universal Health Coverage and Universal Social Protection.

Task

openIMIS

Joint topics for Community Management

Please, check in the colour scheme which is the colour of your organisation/team.
