  - Practical assignment

Practical Work

- Fictious tender to implement a nationwide health protection scheme
- Students have to create a bid & make a pitch

Practical Work

- Fictious tender to implement a nationwide health protection scheme
- Students have to create a bid & make a pitch

- Most features available in openIMIS
- Mobile app missing $\rightarrow$ has to be implemented
- Business plan has to be developed

Support needed

- What features should the mobile app provide?
- How could the tender look like?
- Who could support me with FHIR?
