

# openIMIS Initiative

## Outlook

08.06.2023

openIMIS Coordination Desk

# Governance Structure

# Timelines

1. Current GIZ project phase comes to an **end 31.08.2023**
2. New GIZ project phase  
**01.09.2023–31.08.2026**

Commitment from BMZ and SDC to continue support for the openIMIS initiative.

# Broad focus

The reach of the openIMIS initiative is increased.

The openIMIS user base of scheme operators in health and social protection is broadened.

## **Increased implementations**

More use cases in health and social protection are catered to by openIMIS.

## **Increased Functionalities**

The image displays two overlapping screenshots from the openIMIS community tools. The top screenshot shows the GitHub organization page for openIMIS, featuring a search bar, repository statistics (120 repositories, 1 project), and a 'Pull requests' button. The bottom screenshot shows the openIMIS Service Desk interface, which includes a welcome message, a list of help topics (e.g., 'Question about openIMIS', 'Report a bug', 'Request a new feature'), and a 'View as: Member' dropdown menu. The service desk also displays a 'People' section with avatars of community members and an 'Invite someone' button.
