270	Missing Django Migrations	I	● We have an issue with Django migrations. ● Fix means that we'll have to run a SQL command manually ● claim_batch and contribution plan depend on ('product', '__first__') ● But there is no initial on product, creating one creates a dependency map issue ● Solution is to create the initial and manually inject it into the django_migrations table. ● Cannot be done from a migration	30.09.2021
