|     |                               |   | <ul style="list-style-type: none"> <li>• UCPC MoH</li> <li>• training ongoing</li> <li>• bugs fixing, performance optimisation ongoing</li> </ul>  |            |
| 301 | Split database user           | A | <p>Consider splitting database user of the webapp and the more advanced user. Right now, the documentation says to create imisuser with db_creator role. The user also has the right to create backups and restore them. The legacy app allows admins to give a path like c:\openimis\foo and dump a file there. Or load the database from such a path. This is a big risk for security. Even if it is restricted to Admins, combined with another flaw, it might have very bad effects</p>  | 03.03.2022 |
| 304 | Django module from ol modules | A | <ul style="list-style-type: none"> <li>• Add django modules from openimis modules</li> <li>• this is not only about loading py modules, it needs to be part of the DJANGO_MODULE in the assembly settings.py</li> </ul>  | 12.05.2022 |
